Monthly Meeting

The third Monday of the month at 7 pm.

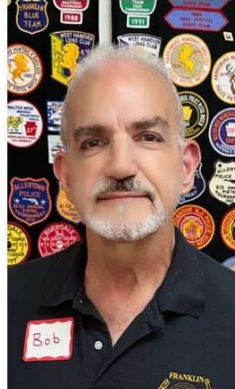

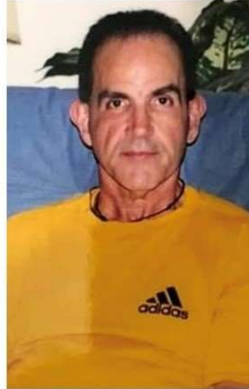

A rare visit from the Molding Fairy

Not all fairies wear glitter and wings. Some wear work boots and carry a nail gun. Such is the tale of **Dave Anderson**, the Molding Fairy, who possesses a rare and magical gift for perfectly installed ground molding. It was a clear Monday morning when our clubhouse stood tired and unfinished, the ground molding sadly absent along the baseboards like a frameless masterpiece. Within minutes, he was measuring twice, cutting once, and moving like a beaver powered by caffeine and sawdust. Every corner was mitered to perfection. Where there had once been bland cement touching the floor, there was now a majestic crown of baseboard molding.

Many thanks from all of us to **Dave** for this project, which was long overdue. We hear he's also great with an insect sprayer, getting rid of the ants that have been attracted to food left at the Club. He also scattered some mothballs in our bathrooms, hopefully to keep the cave crickets out.

If not for people like **Dave**, our clubhouse would not be in such great shape.

Member Spotlight

This month, we highlight Bob Uzzalino

Bob joined the Club in 1987, back when he was a handsome young man (now he's an attractive middle-aged man). He ran leagues throughout the 1990s and remains active in running and participating in leagues today. Bob's main hobby is shooting, but he also engages in weight training to maintain his physical shape. For shooting, his favorite pistol is his 1911 Colt 45 that he purchased in 1984.

Who would have guessed that Bob was a beautician in his younger days and an extra for a professional opera troupe in Hackensack, playing the role of a Roman soldier? He then settled into a long career as a salesman for Revlon, selling beauty supplies, before switching to a manager at a real estate office.

Bob enjoyed participating in the 2022 National Championship match at Cherry Ridge. Still, his proudest moment was organizing the **Ladies Shoot for a Cause** match in 2021, in memory of Charlotte & Don Richard, to benefit the Karen Ann Quinlan Hospice, where they raised \$850.

THE FOLLOWING ARE PROHIBITED

Magnum loads and black powder
Armor-piercing, explosive, tracer, and center f

NO Magnum Loads!!

A Member, in the last month or so, came in and did some significant damage to the target holders in port 22. Obviously, since some of the rounds almost went completely through the steel, they were using loads that are too hot and prohibited at our range.

There's a reason why magnum loads are at the top of the list of what's prohibited at our Club.
